

Are you interested in a program that offers certifications in Mobile Digital Forensics that are affordable?

Look no further than WeReach™

# About Us

**We Reach is a BostonBased nonprofit dedicatedto the service of different communities who are currently underserved in many sectors of the Greater Boston economy.** Our program offers two certifications: XRY Certification for accessing mobile devices and downloading data, and XAMN Certification for analysis.

With only a handful of companies offering this certification due to expensive R&D costs, **WeReach stands out as one of the few certified companies with trained instructors and equipment ready to offer this program.** Partner with us to provide this service to our community **without costly setup and training expenses.** With WeReach, you can provide your officers and students with the best education and training in this field this fall. **Don't miss out on this unique opportunity to enhance your team's skills and stay ahead in the digital forensics game.**

**WE REACH IS ABOUT EMPOWERING! WE TOGETHER CAN AND WILL!**

# Certifications Offered

**XRY Certification:** XRY is a tool used by law enforcement and digital forensics professionals to **extract data from mobile devices, including smartphones and tablets.** This certification provides the necessary training and knowledge to use XRY effectively and efficiently, **allowing professionals to gather evidence from mobile devices in a legally sound manner.** It also covers topics such as mobile device security, device unlocking, and mobile data analysis.

**XAMN Certification:** XAMN is an analysis tool used by law enforcement and digital forensics professionals to **analyze and interpret the data extracted from mobile devices using XRY or other forensic tools.** XAMN is designed to handle large amounts of mobile device data, and it **allows investigators to search, filter, and visualize the data to identify relevant evidence.** The XAMN Certification provides the necessary training and knowledge to use the tool effectively and efficiently, **allowing professionals to conduct advanced analysis of mobile device data in a legally sound manner.**

# Market Potential

Ideas that grow brands

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Nam eget elementum tellus, sit amet aliquam nibh. Pellentesque dignissim sit amet diam et consequat. Nam suscipit neque vitae tincidunt vehicula.

- Ideas that get people talking
- Soaring above the rest to provide the best
- Putting you & yours together

# Our Expertise

Our experience in cyber security includes working with reputable organizations such as the City of Brockton, Bay State College, Taunton, and the Commonwealth of Massachusetts, among others.

We are proud to be certified trainers with MSAB, which enables us to provide in-house certification training to our students. Our team of three instructors, including Dr. William Morrissette, David Ruskey, and Paul Koczwanski, are all certified trainers with years of experience in the field.

# Cost and Time Savings

**We Reach is highly interested in Workforce Development. These are the advantages of partnering with us:**

- Partnering with us is a cost-effective solution.
- It eliminates the need for costly setup and training expenses.
- It provides a time-efficient solution by leveraging the We Reach's expertise. We could give you this capacity for fall of this year.
- It is a free opportunity to develop the workforce and enhance their skills by obtaining certifying students.

# Thank You
