

Helping SAISD Teams Design, Fund, and Deliver Priority Initiatives

Who We Help

We support district teams that are working on strategic initiatives, grant-funded programs, and new efforts—but need additional capacity to move the work forward.

What We Help You Do

- Move strategic priorities into action
- Secure and structure funding
- Launch new programs
- Build workforce and career pathways
- Track progress and results

Core Support Areas

Strategic Planning & Execution

Turn board priorities into clear plans, timelines, and next steps

Grant Strategy & Development

Design fundable programs and support proposal development

Program Design & Launch

Build and launch initiatives that are ready to implement

Implementation Support

Provide hands-on support to keep work moving

Workforce Pathways

Design career pathways and employer partnerships

Performance Tracking

Create dashboards and tracking tied to district goals

HOW ROADS

CAN BE USED

Launch a New Initiative

We help teams move from idea to execution with clear plans, structure, and support.

Example:

Launching a college and career readiness initiative aligned to board goals.

Prepare a Program for Grant Funding

We design programs that are ready for funding and realistic to implement.

Example:

Structuring a workforce program to align with state or federal grant requirements.

Build Career & Workforce Pathways

We help design programs that connect students to real opportunities.

Example:

Developing partnerships between CTE programs and local employers.

Why District Teams Work with Roads

- We focus on **getting work done, not just planning**
- We design programs that can be **funded and implemented**
- We support teams without adding extra burden
- We create **practical tools and plans** that can be used immediately

Selected Experience

- Supporting public-sector initiatives from planning through execution
- Designing programs aligned to funding requirements
- Delivering implementation-ready plans and tools
- Working across multi-team and cross-department efforts

Let's Connect

Roads is an approved SAISD vendor and can support teams across strategic initiatives, grant-funded programs, and new efforts.

We're happy to connect for a short conversation to understand your priorities and where support may be helpful.

Where We Can Support SAISD

- ✓ Strategy & performance tracking
- ✓ Grants and funding
- ✓ CTE and postsecondary initiatives
- ✓ New program design and launch

Helping SAISD Teams Design, Fund, Launch, and Track Priority Initiatives

Who We Help

We support SAISD district teams, including strategy offices, grants and funding teams, postsecondary and pathway leaders, and cross-functional initiative leads working on funded and priority initiatives.

Many teams need additional capacity to move initiatives from concept to execution without adding internal burden.

What We Help You Do

- Move strategic priorities into action
- Structure and secure funding
- Launch new initiatives
- Build workforce and postsecondary pathways
- Track progress and outcomes

Core Support Areas

Strategic Planning & Execution

Turn board priorities into clear plans, timelines, and implementation steps

Grant Strategy & Development

Design programs aligned to funding requirements and support proposal development

Program Design & Launch

Build initiatives that are ready to implement and scale

Implementation Support

Provide hands-on support to move work forward across teams

Workforce Pathways

Design career pathways and employer partnerships

Performance Tracking

Create dashboards and tracking aligned to district goals

HOW ROADS

CAN BE USED

Launch a District Initiative

We support teams in moving initiatives from concept to execution across departments

Example:

Launching a college and career readiness initiative aligned to board goals and tracked across teams

Prepare a Program for Grant Funding

We structure programs to align with funding requirements and implementation realities

Example:

Designing a workforce initiative aligned to state or federal funding

Build Workforce & Postsecondary Pathways

We design pathways that connect students to real opportunities

Example:

Developing partnerships between CTE programs and employers across the district

Why District Teams Work with Roads

- We focus on **getting work done, not just planning**
- We design programs that can be **funded and implemented**
- We help teams move initiatives forward without increasing internal burden
- We create **practical tools and plans** that can be used immediately

Selected Experience

- Supporting initiatives from planning through execution
- Designing programs aligned to funding and compliance requirements
- Delivering implementation-ready plans and tools
- Coordinating work across multiple teams and departments

Let's Connect

Roads is an approved SAISD vendor under the district's miscellaneous consultant services contract and can support teams across strategic initiatives, funded programs, and cross-department work.

We are available for a short conversation to understand your priorities and where support may be helpful.

Where We Support SAISD

- ✔ Strategy & performance tracking
- ✔ Grants and funding
- ✔ CTE and postsecondary initiatives
- ✔ New program design and launch

Helping SAISD Schools Launch and Strengthen Priority Programs

Who We Help

We support SAISD campus leaders, academy and pathway teams, and school-based staff working to launch or strengthen programs.

Many school teams need additional capacity to move programs forward while managing daily operations and limited staff time.

What We Help You Do

- Launch new school-based programs
- Strengthen existing pathways and initiatives
- Build partnerships with external organizations
- Coordinate implementation across teams
- Track program progress and outcomes

Core Support Areas

Program Design & Launch

Build and structure programs that are ready to implement at the school level

Implementation Support

Provide hands-on support to coordinate and execute programs

Workforce Pathways

Design career pathways and connect schools with employer partners

Partnership Development

Support coordination with external partners and stakeholders

Performance Tracking

Create simple tools to track program outcomes

Strategic Planning & Execution

Support planning where schools are launching new initiatives

HOW ROADS

CAN BE USED

Launch a School-Based Initiative

We help schools move from idea to execution with clear structure and support

Example:

Launching a new academy or school-based initiative aligned to existing programs

Strengthen a Pathway or Program

We support schools in improving and expanding existing programs

Example:

Strengthening a career pathway by aligning partners and defining implementation steps

Build Partnerships and Coordination

We help schools connect with external partners and manage collaboration

Example:

Coordinating partnerships between schools, employers, and postsecondary institutions

Why School Teams Work with Roads

- We help get programs running, not just planned
- We provide support without adding extra burden to staff
- We bring structure and coordination to complex efforts
- We create practical tools schools can use immediately

Where We Support Schools

- ✓ Academies and pathway programs
- ✓ College and career readiness initiatives
- ✓ School-based program launch and expansion
- ✓ Partnerships and coordination

Selected Experience

- Supporting program launch and implementation
- Designing pathways aligned to real-world opportunities
- Providing hands-on coordination and support
- Working across school teams and partners

Let's Connect

Roads is an approved SAISD vendor and can support schools working on programs, pathways, and new initiatives.

We are available for a short conversation if your team is working on efforts where additional support may be useful.
